## EDUCATION

**University of Maine at Augusta**, Augusta, ME  
Bachelor of Science: Computer Information Systems  
**Georgia Institute of Technology**, Atlanta, GA  
Online Master of Science in Computer Science

Graduated: May 2026  
GPA: 3.9  
Starting: Fall 2026

## SKILLS & CERTIFICATIONS

*Back-End Development: Python, Java, C, C++, C#, SQL/PLSQL*

*Front-End Development: HTML, CSS, JavaScript, PHP, React, FastAPI, Bootstrap*

*Concepts: Object Oriented Programming, Data Structures & Algorithms, Readability, Efficiency, Debugging*

*Tools: Git, Docker, REST APIs, OpenCV, MediaPipe, Linux*

## RELEVANT COURSEWORK

*Data Structures & Algorithms, Machine Learning, Data Mining, Web Applications*

## PROJECTS

**ThrowLogic**, *Founder and Developer*

January 2026 - PRESENT

- Built a full-stack application that analyzes discus throw technique using computer vision and ML
- Developed React frontend and FastAPI backend for video upload, phase review, and coaching interface
- Implemented pose tracking and feature extraction pipeline using OpenCV and MediaPipe
- Trained RandomForest model for phase detection using pose features and user-validated data
- Integrated OpenAI API to generate structured coaching feedback and actionable recommendations

**Redistricting Analysis Research Project**, *Student Researcher*

April 2026 - PRESENT

*(with Professor Matthew Dube, University of Maine at Augusta)*

- Applying graph theory and data science to analyze electoral districting and demographic change
- Developing models that represent geographic units as graphs to evaluate district structure and fairness metrics
- Working with real-world demographic and geographic datasets to simulate and assess redistricting scenarios
- Implementing data processing and analysis pipelines using Python to support statistical evaluation of district maps
- Applying graph-based modeling techniques to represent geographic data and evaluate district structures

## EXPERIENCE

**Tyler Technologies**, *Technical Services Intern*, Yarmouth, ME

May 2025-PRESENT

- Diagnosed and resolved 500+ tickets in software and system issues, applying debugging techniques to identify root causes
- Assisted in deploying and configuring systems, improving reliability and performance across internal environments
- Collaborated with team members to troubleshoot application and network-related issues

**CloudStruct LLC**, *Co-CEO*, Southport, ME

March 2025-PRESENT

- Designed and developed numerous custom websites using **HTML, CSS, PHP, and Bootstrap** for small businesses and organizations
- Built and deployed full-stack web solutions on a dedicated server, handling both frontend design and backend functionality

**Zach Tech**, *Independent IT Technician*, Edgecomb, ME

July 2018-PRESENT

- Provided technical solutions including system diagnostics and software troubleshooting for client devices
- Applied problem-solving and debugging skills to resolve hardware/software issues efficiently

## LEADERSHIP & ACTIVITIES

**President, UMA E-Sports Club**

2024-PRESENT

**Captain, Varsity E-Sports Team**

2022-PRESENT

**President, Student Government Association**

2023-2024

## AWARDS & HONORS

**NAPSA Region I: Catch a Rising Star - State Award**

August 2023, October 2024

**UMA President's List**

Spring/Fall 2022-2025

**High School Honor/High Honor Roll**

2018-2022

**National Technical Honor Society Member**

May 2022
